JOURNAL

OFFICE OF LEGISLATIVE COUNSEL

Monday - 16 July 1973

STAT 1. (Internal Use Only - JGO) Received a call from Charles Nagel, a summer intern in the office of Representative Bob Eckhardt (D., Tex.). Nagel is one of 70 students from the University of California in Berkeley here on summer internship. He said that his group had been given a tour of the Agency two years ago and asked if similar arrangements could be made for this year's group. After checking with Angus Thuermer, Assistant to the Director, I called [ ] OTR, who said he would return Nagel's call and offer a briefing for the group on the Hill at their convenience.

2. (Unclassified - GLC) Talked to Mr. Carpenter, on the staff of the Ervin Committee, about the possible appearance of Ambassador Helms and Generals Walters and Cushman before the Committee later this month. I told him we had been in contact with Ambassador Helms and added that he would be in Washington and available during the week of 30 July if the Committee wants to have him testify. I told him that I assumed they would want the three men to appear within the same time frame. Mr. Carpenter said their schedule is still very fluid but they had talked recently about having these three men up during the week of 30 July and he would let us know as soon as something definite is decided. I told him I would be away for two weeks but he could call Mr. Maury or Mr. Houston.

3. (Unclassified - GLC) Received a call from Mr. Robert J. Monahan, Assistant Director for Security, OSD, who is doing a security review of the DOD position of the joint CIA/DIA hearing on Laos/MASF of 27 June. Monahan offered his assistance if we needed it. Later in the day I told him that I had returned a copy of the transcript to the Senate Armed Services Committee with a suggestion that an unclassified version of Colby's statement which we had provided be inserted in the record in lieu of Colby's prepared classified statement with a notation in the transcript to this effect. Monahan said he would merely note in the copy of the transcript they are sending to the Committee that they would defer to CIA with respect to Colby's testimony.
